Kim -

Kim, see attached for the kind of detailed rationale that Jim seems to be seeking. Much of this is old stuff, but I think it's more clear/definitive on some key points. Helen and I have gone back and forth on it once, so now it's time to get your read on it.

Helen, thanks for the excellent edits in the first round.

Also, Kim, if this is not new enough material to make a difference, please tell me/us. Don't want to waste time/effort.
